

## Gravel Wins Brad Doty Classic

Sponsored by Ohio Logistics

From *Worldofoutlaws.com*

ATTICA, OH – The incredible 2024 campaign for David Gravel keeps on rolling.

Entering this huge week of Sprint Car Racing in Ohio, Gravel and the Big Game Motorsports crew had already made nine trips to Victory Lane. And they displayed on the same speed on Tuesday night at Attica Raceway Park that they've shown time and time again this year. This time it came with the prestige of the Ohio Logistics Brad Doty Classic presented by dac® Pet Products on the line.

Gravel waited patiently for the right moment and pounced to take the top spot on the 17th circuit of the 40-lapper and drove to his 10th win of 2024 with The Greatest Show on Dirt. He also helped his crew chief Cody Jacobs get some Brad Doty Classic redemption. Oddly enough, it was Gravel himself who denied Jacobs of the event back in 2017.

The victory made 2024 the fifth year in which Gravel has reached double-digit checkered flags as his career win total with the World of Outlaws grew to 98. He joined Donny Schatz, Kyle Larson, Steve Kinser, Danny Smith, and Dale Blaney as the sixth competitor to top multiple Brad Doty Classics. The 32-year-old also joined Schatz, Larson, and Blaney as those with at least three World of Outlaws victories at Attica.

Donny Schatz brought the No. 15 home second for his seventh podium in the last 12 Attica races. It was also his 12th top three of the 2024 World of Outlaws campaign.

Rounding out the podium was Kyle Larson in the Silva Motorsports No. 57. The 2021 NASCAR Cup Series champion was strong all night, but a slight mistake on a late restart potentially cost him a shot at a third consecutive Brad Doty Classic.

### Test Your Logistics IQ:

1) A performance measurement tool used to capture a summary of the key performance indicators (KPIs)/metrics of a company. Metrics dashboards/scorecards should be easy to read and usually have red, yellow, green indicators to flag when the company is not meeting its metrics targets. Ideally, a dashboard/scorecard should be cross functional in nature and include both financial and non-financial measures. In addition, scorecards should be reviewed regularly-at least on a monthly basis and weekly in key functions, such as manufacturing and distribution where activities are critical to the success of a company. The dashboard/scorecards philosophy can also be applied to external supply chain partners like suppliers to ensure that their objectives and practices align.

2) A company that acts as a clearing-house for electronic transactions between trading partners. A third party supplier that receives EDI transmissions from sending trading partners and holds them in a mailbox until retrieved by the receiving partners.

## Tech Talk *By Ohio Logistics' IT Manager, Mike Spradlin*

Welcome to "Tech Talk," your inside source for all things IT. CrowdStrike? What is CrowdStrike and what happened that brought down millions of computers? CrowdStrike is a cybersecurity company known for its advanced threat intelligence and endpoint protection solutions. On July 19, 2024, CrowdStrike encountered a significant issue when faulty code was put into their production environment leading to Blue Screen of Death (BSOD) errors on millions of Windows systems. This incident was triggered by a problematic update to CrowdStrike's Falcon sensor software, a key component of its endpoint protection platform. The update inadvertently caused conflicts with Windows operating system files, leading to widespread system crashes. This incident underscored the complexities of deploying

updates in a diverse IT environment and highlighted the importance of rigorous testing and quality assurance processes to prevent such occurrences in the future. It also made it very evident how dependent the world has become on technology - so much so, that one bad file, installed incorrectly, could have a global impact.

Did you know? The CrowdStrike outage impacting approximately 8.5 million Windows computers.

Fact: Despite the affected devices representing less than one percent of all Windows machines, the incident had global repercussions, disrupting critical services across various sectors including first responders, banks, airlines, and retailers.

## Meet Zach Hall

Zach is a four-month Associate and Mechanic for our Maintenance Group in Findlay, OH. Zach is also a U.S. Marine Corps Veteran. He was kind enough to take a break from his work to answer our questions.

OL: Tell us about your family.

Zach: I grew up in the trucking industry. My dad was a driver. My older brother is a driver and my little brother works on trucks, too. My wife and I have a six-year-old boy and have been married for almost two years.

OL: What are some of your favorite things to do when you aren't working?

Zach: Spend time with my family and friends, shooting guns, and building military kit models.

OL: What is your favorite Findlay restaurant?

Zach: Texas Road House, and I order the Prime Rib.

OL: What is one of your biggest pet peeves?

Zach: A messy shop. When people don't put stuff back where it belongs and it makes it hard to find things.

OL: If you wanted to impress someone with a home-cooked meal, what would you make?

Zach: Steak Alfredo. I'd take a porterhouse steak, cut it up and make Alfredo.

OL: If \$50,000 fell in your lap and you had to spend it, what would you buy?

Zach: My dream car, a '69 Chevy Chevelle SS 396, black on black.
