

# Ohio Logistics Expands in BG

## With a new 100,000 sq. ft. warehouse

*This 100,000 sq. ft. warehouse is scheduled to be complete by the end of 2023. Our other two Bowling Green warehouses can be seen side by side at the top of the image.*

Under construction in Bowling Green's Woodbridge Industrial Park is Ohio Logistics' third and newest warehouse in Bowling Green. The 100,000 sq. ft. spec facility is located on 40 acres at 134 Woodgate Dr., Bowling Green, OH.

With a prime location 1/2 mile from I-75, the property is readily expandable to include 300,000 sq. ft. of state-of-the-art space for manufacturing purposes.

Ohio Logistics remains committed to our customers by providing design/build facilities for both distribution and manufacturing.

### OHIO LOGISTICS Warehousing & Transportation

Findlay, OH 45840	(419) 425-4906
<b>Four Locations</b>	
Fostoria, OH 44830	(419) 436-8210
<b>Three Locations</b>	
Northwood, OH 43619	(419) 425-4906

### OHIO LOGISTICS Olive Branch Division

Olive Branch, MS 38654	(662) 219-2977
------------------------	----------------

### DOCUMENT SERVICE COMPANY

Findlay, OH 45839	(419) 422-3330
-------------------	----------------

### Interesting Ohio History

*Versailles, OH was founded in 1819, and named after the city of Versailles in France. Versailles was originally named Jacksonville, in honor of Andrew Jackson and his victory at the Battle of New Orleans. Later on, as a large number of early residents were of French descent, it was suggested that the village's name be changed to "Versailles" in memory of their homeland. Versailles became the new name of the village in 1837. Versailles is also known for hosting its annual Poultry Days festival in June. The festival consists of crowning a "Ms. Chick" and "Little Miss Chick," a carnival, a parade, and the production of over 25,000 slow roasted chicken dinners.*

### Spotlight October Winners:

**Bowling Green, Fostoria #1, Ottawa, OH and Olive Branch, MS**

## Congratulations! Tayler Timler Celebrates 15 Years

*Tayler is congratulated by Chuck Bills*

We thank Tayler for his hard work and dedication to Ohio Logistics. Your efforts are sincerely appreciated, Tayler!

## Ohio Logistics Assists With Local Food Drive

*Pictured left to right are Dennis Turner, Ed Sheeter, Paul Robinette, and Ohio Logistics' Phil Roberts*

Ohio Logistics partnered with the local VFW to help with a food drive to benefit the less fortunate. All of the donations were donated on 11/18 to the VFW and then delivered by Ohio Logistics' Driver, Phil Roberts, to the City Mission on the 19th. Thanks to the local VFW members, they assisted in all of the loading and unloading of goods. Ohio Logistics has been a partner with the VFW and City Mission for several years.

We feel fortunate and blessed to be able to give back to our communities, and wish everyone a Merry Christmas!

## Take Good Care Of Yourself

The flu can cause serious complications for people of any age, but children and older adults are especially vulnerable. To help keep your household healthy this flu season, consider the following suggestions:

- Avoid close contact with people who are sick, and stay away from others when you don't feel well.
- Wash your hands often using soap and warm water to protect against germs. If soap and water are unavailable, use an alcohol-based hand sanitizer.
- Cover your coughs and sneezes to prevent the spread of germs.
- Sleep well, stay active and drink plenty of water to keep your immune system strong.
- Eat a nutritious diet of healthy grains, fruits, vegetables and fiber.

### *Where Are the Germiest Places?*

Germs are a part of life—and they're everywhere. The dry air associated with fall and winter also makes it easier for germs to spread and linger in the air. Here are some germ hot spots:

- **Home**—Remote controls, kitchen counters, bathroom fixtures and handles, sponges and toothbrush holders.
- **Workplace**—Desktops, keyboard, mouse, chair armrests, writing tools, handles, switches and doorknobs.
- **School**—Water fountains, doorknobs, desks and tables, shared school supplies, cafeterias and playgrounds.

Hand-washing is one of the best ways to prevent the spread of germs, especially after sneezing, coughing or blowing your nose.

## Halloween Brings Shady Characters To Fostoria

*The folks shown here really aren't shady characters, but the same solid crew of outstanding Associates that keep Fostoria #1 running like a well oiled machine, proving that quality work and fun can go together.*

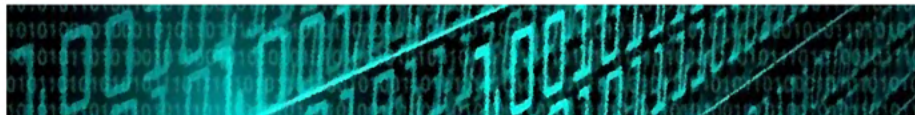

## Ohio Logistics Hosts Customers and Associates For BGSU vs Ball State Game

*The Wilcox Boardroom at Doyt Perry Stadium in Bowling Green, OH served as the perfect venue for bonding between associates and customers, all while enjoying great food & beverages and catching some BG football action. It was an enjoyable evening!*

## Tech Talk

By Ohio Logistics' IT Manager, Mike Spradlin

Welcome to "Tech Talk," your inside source for all things IT. Have you ever heard of **quantum computing**? If you aren't into hardcore tech, then it's unlikely that you have, but this technology will change the way we view computers. At a high level, quantum computing represents a paradigm shift in information processing. Unlike classical computers, which use bits to represent either a 0 or a 1, quantum computers leverage quantum bits, or qubits, which can exist in multiple states simultaneously. This unique characteristic allows quantum computers to perform complex calculations at speeds unimaginable for classical counterparts. Quantum computers excel in solving prob-

lems involving massive datasets, intricate simulations, and complex optimization tasks. Their potential applications span cryptography, drug discovery, weather modeling, and artificial intelligence. As researchers make strides in this fascinating field, quantum computing emerges as a revolutionary tool with the power to transform industries and reshape our understanding of computational possibilities.

Did you know: The term "bug" in the context of computer glitches originated in 1947 when a computer scientist found an actual moth causing problems in the Harvard Mark II computer.

### Test Your Logistics IQ:

1) The process of sampling a portion of goods for inspection rather than examining the entire lot. The entire lot may be accepted or rejected based on the sample even though the specific units in the lot are better or worse than the sample. There are two types: attributes sampling and variables sampling. In attributes sampling, the presence or absence of a characteristic is noted in each of the units inspected. In variables sampling, the numerical magnitude of a characteristic is measured and recorded for each inspected unit; this type of sampling involves reference to a continuous scale of some kind.

2) The process of developing a set of tactical plans (e.g., production plan, sales plan, marketing plan, and so on). Two approaches to tactical planning exist for linking tactical plans to strategic plans – production planning and sales and operations planning.

### December Dates of Importance:

- December 7 - Pearl Harbor Remembrance Day
- December 11 - Pilgrims Land on Plymouth Rock, 1620
- December 15 - Bill of Rights Day
- December 16 - Boston Tea Party, 1773
- December 17 - Wright Brother's First Flight, 1903
- December 21 - First Day of Winter
- December 25 - Christmas Day
- December 31 - New Year's Eve

### Answers to "Test Your Logistics IQ"

1. Acceptance Sampling
2. Tactical Planning

## Meet Tony Chidester

Tony is a four-year Associate and General Manager for Buildings #3 and #4 in Findlay. He was quick to respond with answers to our questions so that we can learn a little more about him.

OL: Tell us about your family.

Tony: I'm married to my wife Debbie. We have been married for 38 years this December. She has supported me through 21 ½ years while I served in the United States Air Force. Our family consists of furry babies (two cats).

OL: You just won \$10,000 on the lottery. What are you going to do with it?

Tony: Take a vacation to Arizona.

OL: How do you like to spend your free time?

Tony: Watching college football. I'm a big fan of the Buckeyes. I also like to look at nature, birds and wildlife.

OL: Which local hole-in-the-wall restaurant would you recommend to someone visiting from out of town? What should they order?

Tony: Main Street Deli (order the Secretary). Also, La Charrita has great Mexican food and margaritas.

OL: What is your biggest five year goal?

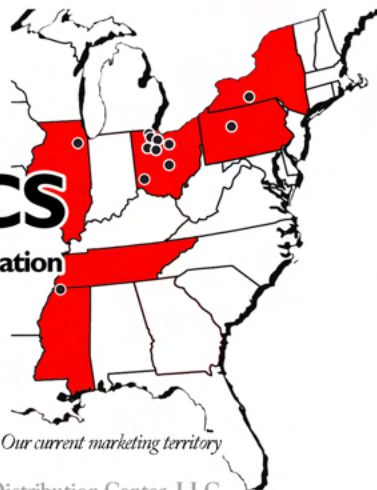

Tony: Take a trip out to Arizona to visit the United States Aircraft Boneyard and do some wildlife drives.

OL: Tell us your favorite destination within two hours of home.

Tony: The Horseshoe to take in a Buckeye's football game. Not a better stadium in all of college football.

OL: Tell us something about yourself that most people don't know.

Tony: I like old historical buildings, stadiums & mansions. Sometimes we are too quick to tear something down with history and great architecture and replace it with something not as grand. Also, I'm a 6yr cancer survivor, and spent 7 ½ years in combat zones while in the United States Air Force.
