Northern Georgia Logistics

Learn more about our Division in the Peach State

Rock Spring, GA Facility

With two locations in Georgia, one in LaFayette and the other in Rock Spring, Ohio Logistics has a significant presence in Walker County through our Northern Georgia Division. Located in the NW corner of Georgia, LaFayette and Rock Spring are part of the Chattanooga, TN-GA Metropolitan Statistical Area.

“At Northern Georgia Logistics each of our two facilities has 50,000 sq. ft. of state-of-the-art warehouse space,” says Tim Reynolds, Facility Manager. “We have a small, but efficient team of seven associates that work at the two locations. Amber Doty (CSR), Ray LaFleur (Truck Driver/Forklift Operator), and Greg Moten (Forklift Operator) are located at the Lafayette location. James Gillenwater (Lead), Robbie Scott (CSR) and Steven Howard (Truck Driver/Forklift Operator) work out of the Rock Spring warehouse.”

“Our primary customers in LaFayette are an automotive parts manufacturer, and a supplier of aluminum ingots used by the parts manufacturer. Our team is proud of the role that they play in helping these customers achieve success as independent businesses,” says

Reynolds. “Our other warehouse location in Rock Spring serves several manufacturers of popcorn, a flour-based company, and a supplier of poly resin used in the manufacture of plastics. All of us at Northern Georgia Logistics are proud to provide the best service available to our customers, as well as supporting the communities in which we operate.”

Not only does our Northern Georgia Division do their best to provide quality service to our customers, but they also consistently score toward the top of our locations with regard to the GYST program, a program designed to keep our facilities operating at high levels. Reynolds adds, “When I first took on the Facility Manager position in November 2018, I had no idea what the GYST program was. After being introduced to the program by Stephanie Miller, and with her help, I think our Team has done well with the expectations on GYST. I would also like to give thanks to Jeff Montague, Kevin Anderson, and Josh Piercefield for all of their help and guidance when they visited NGL. At Northern Georgia Logistics we strive to live by **Rule #1: If we don't take care of our customers, somebody else will.**”

Interesting Ohio History

Due to the expansion of railroads and manufacturing boom in the region, glass production became well known in Toledo in the late 19th century. Some of the largest glass companies including Owens-Illinois, Owens Corning, Libbey Glass, and Libbey Owens Ford were founded in the northwestern Ohio city. Nicknamed the “Glass City” and the “Glass Capital of the World”, Toledo is very proud of its history and connection with glass. Toledo is also home to the first building to be completely covered in glass.

What Would Happen If The Trucks Stopped?

Be sure to thank a driver today!

Have you ever stopped to think what life would be like if the trucks stopped moving? It wouldn't take long for most everything in the country to come to a halt. In just 24 hours, significant and noticeable effects would take place. Read below to see what research shows would happen if trucking halted nationwide.

Delivery of medical supplies to the affected area will cease.

Hospitals will run out of basic supplies.

Manufacturers using just-in-time manufacturing will develop component shortages.

U.S. Mail and other package delivery will cease.

Within one day, food shortages will begin to develop.

Automobile fuel availability and delivery will dwindle, leading to skyrocketing prices and long lines at gas pumps.

Food shortages will escalate, especially in the face of hoarding and consumer panic.

Supplies of essentials, such as bottled water, powdered milk, and canned meat at major retailers will disappear.

ATMs will run out of cash, and banks will be unable to process transactions.

Service stations will completely run out of fuel.

Garbage will start piling up in urban and suburban areas.

Container ships will sit idle in ports, and rail transport will be disrupted, eventually coming to a standstill.

Automobile travel will cease due to the lack of fuel.

Hospitals will begin to exhaust oxygen supplies.

Clean water supply will begin to run dry.

The Nation's clean water supply will be exhausted.

Every day, all across our great nation, truck drivers perform a duty that literally keeps us alive. We thank all of them, especially those that have made Ohio Logistics their home!

Useful Information

Hybrid car owners are the most satisfied over the longer term. In a study of 2012-2013 model year cars with the most satisfied owners, hybrids take the top five spots, and the top three of those are all Toyotas...Highlander Hybrid, Avalon Hybrid, and Camry Hybrid. The car with highest percentage of original owners after eight years is the Highlander Hybrid at 38%. The Avalon Hybrid is still owned by 36.5% of original owners, and the Camry Hybrid by 34.6%. All those percentages are more than two times the average of original owner retention of eight-year-old cars. However, Toyota scored fourth as a brand for owner satisfaction after eight years. Volkswagen was in first place, followed by Subaru and Honda.

Save Money

Use apps to replace your cable boxes. Instead of paying \$10 per month or more per television, you may be able to use a fee app to bring in your favorite channels. Comcast has apps for Roku media players and many Samsung and LG connected TVs. AT&T has different apps for its different services, including an Amazon Fire app with U-verse and support for Google and Apple share to TV features with AT&T TV service. Spectrum has apps for Android, iOS and some Amazon Kindle Fire tablets. Dish Network has an app for Android, iOS, and Amazon Kindle Fire tablets and TV players. Verizon has a Fios TV app supporting Chromecast and AirPlay. It's best to contact your cable provider to find out what apps are available.

Wise Words

"Courage is not having the strength to go on; it is going on when you don't have the strength."

Theodore Roosevelt

Ohio Logistics Service Celebrations

Ben Harris - 20 Years, & JoLynn Long - 15 Years. Congratulations!

Chuck Bills presents certificates to each Ben Harris and JoLynn Long for their outstanding dedication to Ohio Logistics. Thank you, and congratulations!

Test Your Logistics IQ:

1) A computer term describing a private network (or a secured link on the public Internet) that links separate organizations and uses the same software and protocols as the Internet. Used for improving supply chain management. For example, extranets are used to provide access to a supply chain partner's internal inventory data which is not available to unrelated parties.

2) The total cost to process repairs, refurbished, excess, obsolete, and end-of-life products, including diagnosing problems and replacing products. Includes the costs of logistics support, materials, centralized functions, troubleshooting service requests, on-site diagnosis and repair, external repair, and miscellaneous. These costs are broken into Returns Order Management, Returns Inventory Carrying, Returns Material Acquisition, Finance, Planning, IT, Disposal, and Warranty Costs.

March Dates of Importance:

March 3 - National Anthem Day
March 5 - Employee Appreciation Day
March 14 - Daylight Savings Begins
March 17 - Saint Patrick's Day
March 20 - Start of Spring
March 28 - Palm Sunday
March 29 - Armed Forces left Viet Nam (1973)

Congratulations!

Roadside Inspection Passed

Tom Orwick – Level 3. No violations!

Clean Truck Inspections Passed

Randy Kelly, Mike Kupper, Ken Martin, Gary Anderson, Darrin Simon, Jerrod Steffensen, Ray LaFleur, Dan Blanchard, and Steve Howard.

Great job! As always, we thank you for your dedication to Ohio Logistics!

Donation Received

As mentioned in our January Newsletter, Chuck's 2020 Christmas gift was a collection of coloring books, crayons, activity books, markers and pencils gathered by our Associates... all to be donated to children's hospitals. This photo shows the delivery of some of the collected items to the Cincinnati Children's Hospital. We wish these children and their families all the best!

Meet Paul Porter

In the seven months that he has been with the company as a Maintenance Tech, Paul has proven himself to be hard working, optimistic, energetic, and a go-getter when it comes to getting the job done. Eager to get the day started, Paul quickly answered our questions to get on with his work.

OL: Tell us about your family.

Paul: I've got two younger brothers and my mom. No kids and never been married.

OL: What do you like most about working for Ohio Logistics?

Paul: I enjoy the work environment, and the people I work with are great.

OL: You've got the day off with no obligations. What are you going to do?

Paul: I'm going to head to the golf course.

OL: Describe your ideal vacation.

Paul: Visiting the Baseball Hall of Fame is at the top of the list.

OL: Favorite local restaurant, and what do you order?

Paul: The Beer Barrel, and I like the pulled pork taco.

OL: What is your biggest pet peeve?

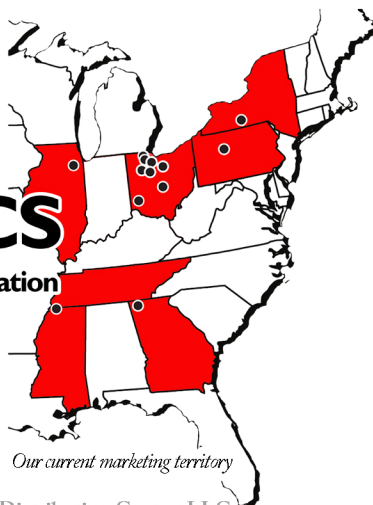

Paul: Lazy people.

OL: What advice would you give the 18-year-old version of yourself?

Paul: You've got to keep a positive attitude.
