THE SMART MOVE.

Ohio Logistics Sponsors NASCAR Truck Series Race at Bristol Motor Speedway - The UNOH 200

Ohio Logistics continued with their tradition of racing sponsorship, most recently on September 15 at Bristol Motor Speedway. Bristol is among the most popular tracks on the NASCAR schedule because of its distinct features, which include extraordinarily steep banking, an all-concrete surface, two pit roads, and stadium-like seating. It has also been named one of the loudest NASCAR tracks. The track is billed as the "World's Fastest Half-Mile."

Ty Majeski downplayed his final run in Thursday night's UNOH 200 presented by Ohio Logistics at Bristol Motor Speedway as "just another restart." In reality, it was the most important moment to date in Majeski's hardscrabble career.

Streaking away from Zane Smith after a restart with 12 laps left in the NASCAR Camping World Truck Series' Round of 8 Playoff race, Majeski scored the first NASCAR national series victory of his career and claimed the first berth in the Nov. 4 Championship 4 finale at Phoenix Raceway.

"Awesome job! Thank you!" Majeski radioed to crew chief Joe Shear Jr. as he crossed the finish line. "Let's polish this baby up, and let's take this thing to Phoenix."

The 28-year-old from Seymour, Wisconsin added, "Man, this is unbelievable. I've been waiting for an opportunity like this... We came guns blazing for this race, took our best truck. Joe was aggressive on pit strategy—got us out front, and we were able to get it done. This is so cool. My career's been so up-and-down... This is just damn cool—I've been waiting for this for a long time."

Smith started from the rear of the field because of transmission issues that prevented him from qualifying. But after pitting under the first caution for Josh Reaume's accident on Lap 37, Smith finished the race without returning to pit road.

The strategy put Smith in the lead for 39 laps, but Majeski had the superior truck and made the winning pass during a restart on Lap 156. He kept Smith at bay on two late restarts to seal the victory.

"A good salvage of the night," said Smith, who crossed the finish line 1.152 seconds behind the race winner. "I tried matching the 66 (on the restarts). I did the first time, but on the second time, he just got me. He was ultimately just better than us. Still, a never-give-up kind of night. That's what it takes to get to the final 4."

Interesting Ohio History

The Olenangy Indian Caverns located in Delaware, OH are a series of caves, natural passages and rooms occupying three different levels. The caverns were formed millions of years ago by an underground river that cut through the limestone rock. They were used by the Wyandotte Indians as a refuge from the weather and from their enemies, the Delaware Indians.

Truck Driver Appreciation Week

Truck Driver Appreciation Week was celebrated across the nation from September 11th through the 17th, and Ohio Logistics was there to recognize our great Drivers for all of their efforts they display on a daily basis. Each of our warehouses offered a wide assortment of complimentary snacks and beverages made available to all drivers visiting our facilities.

These quick breaks for a little healthy energy

also provided opportunity for Drivers to engage in valued and good conversation about Ohio Logistics, and offered time to answer any questions. Ohio Logistics' Director of Transportation, Todd Weadock, adds, "I am proud that our Associates feel comfortable to come in and talk with us on a daily basis. Our Drivers always act in a professional manner while keeping safety at the forefront of their daily operation, and for that, I'm thankful."

Trucking Info. Did You Know?

Trucks carry 73% of cargo (by weight) in the US. Of the 4 million shipments of Dangerous Goods every day, 94% are carried by trucks.

Alexander Winton invented the semi-trailer in Cleveland in 1898. Winton was an automobile manufacturer who developed the trailer truck as a way to deliver his cars.

Mack Trucks was founded by brothers John and Gus Mack in 1900. Their first products were buses. Along with trucks, they also made rail cars and locomotives.

Mack adopted their famous bulldog symbol in 1923; the company's chief engineer carved the first bulldog hood ornament while recovering from surgery.

Kenworth has roots as far back as 1912. Partners Frederick Kent and Edgar Worthington bought the Gerlinger Motor Car Company in 1917 and combined their names to introduce the Kenworth brand in 1923.

"Smokey and the Bandit" was the #2-grossing movie of 1977, behind only "Star Wars." Most of the script was ad-libbed.

Steven Spielberg's first full-length effort as a director was "Duel," a TV-movie about an ongoing battle between a motorist and a deranged trucker in a Peterbilt 281. His second movie was "Jaws."

Peterbilt was named after T.A. Peterman, a lumber entrepreneur who needed a better way to move logs from the forest to his lumber mills. After rebuilding army surplus trucks, he built his first new truck—the Model 260—in 1939, and sold 15 in the first year.

Great Job, PCL! Appreciation From a Customer

Thank you, Penn Centre Logistics for always taking care of us. I appreciate that you appreciate your truck drivers. Wish more businesses were like your business. Not just because you put out snacks and gifts, but just appreciating what we do and what we go through. You show us you care and if anyone ever gets the chance to go there you will see for yourselves. Very pleasant and kind and always greeting everyone. You're a great crew, from the office personnel to the dock workers. Thank you!!!!!!

Ohio Logistics Supports Children's Charity

Ohio Logistics is proud to support Bristol Speedway Children's Charities. Read below to learn more about this great organization.

Bristol Speedway Children's Charities was founded in 1996 to help children in the surrounding area of Bristol Motor Speedway by Bruton Smith, Chairman of the Board of Speedway Motorsports, Inc.

Operating as a 501(c)(3) non-profit organization, Bristol Speedway Children's Charities is directed by Claudia H. Byrd and governed by a board of local trustees whose sole purpose is to distribute the funds raised each year to qualified local children's-based 501(c)(3) organizations.

The Bristol chapter has distributed nearly \$14 million dollars since its inception. Major fundraisers for the Bristol chapter include the Red Bucket Brigade, 50/50 raffle, NRA Celebrity Shooting Tournaments, Baker's Con-

struction Services Golf Tournament, SCC Live Auction and our flagship fundraisers: The Pinnacle Speedway In Lights Powered by TVA and the Ice Rink presented by HVAC.

Speedway In Lights is a holiday light spectacular, stretching over 5 miles. More than 2 million lights brighten the lives of area families and represent a holiday tradition in the Tri-Cities.

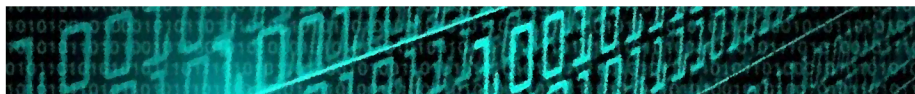

At the Bristol Chapter of Speedway Children's Charities, we are a team recruiting "Believers in Change" in order to make a difference in the lives of children in our local community. Are you interested in helping us make an impact? Join our Say Yes Campaign. Advocate, Volunteer or donate and help us create more change in our community.

If you have interest in getting involved or learning more about "why" we do what we do, please contact Betsy Holleman at 423-989-6975 or betsy@bristolmotorspeedway.com.

Tech Talk

By Ohio Logistics' IT Manager, Mike Spradlin

Welcome to "Tech Talk," your inside source for all things IT. This month I would like to update you on an exciting endeavor that IT has undertaken. In the coming months we will be launching an all-new Ohio Logistics website. The existing website has served us well through the years but as with everything, the time has come for an update. The new website will have a totally new look and feel to it. We will be adding new content describing all the locations and services the company has to offer. This new content will include pictures and videos from inside some of the facilities,

as well as some new drone footage. Keep an eye out for it and be sure to let us know what you think!

Did you know? Japan has the fastest internet speed at 319 terabytes per second! This Internet speed is fast enough to download approximately 80,000 movies per second. The engineers used fiber-optic cables to make this world record possible.

Fact: You might think of the word "technology" as modern or contemporary but it's not. It was actually coined by Aristotle in 330 B.C.

Test Your Logistics IQ:

1) The carrier activities involved with controlling equipment; involves arranging for fuel, drivers, crews, equipment, and terminal space.

2) A performance measurement tool used to capture a summary of the key performance indicators/metrics of a company. They should be easy to read and usually have red, yellow, green indicators to flag when the company is not meeting its metrics targets. They should be cross functional in nature and include both financial and non-financial measures. In addition, they should be reviewed regularly—at least on a monthly basis, and weekly in key functions such as manufacturing and distribution where activities are critical to the success of a company. The philosophy can also be applied to external supply chain partners to ensure that their objectives & practices align.

3) Finished goods inventory held at the end manufacturing location.

October Dates of Importance:

October 10 - Columbus Day
October 12 - National Farmers Day
October 15 - Sweetest Day
October 17 - Boss's Day
October 29 - Stock Market Crash, 1929
October 31 - Halloween

Answers to "Test Your Logistics IQ"

1. Dispatching
2. Dashboards
3. Plant Finished Goods

Meet Tim McGill

Tim is a 2 ½ year Associate and forklift operator in our Penn Centre Division. Read below to learn a little more about Tim.

OL: Tell us about your family.

Tim: I married my high school sweetheart (39 years and counting). We have a daughter, Erin, two sons, Sam & Ethan, and three grandchildren.

OL: What do you like most about living in PA?

Tim: I like the small-town atmosphere with peace and quiet. There are plenty of outside activities with mountains, lakes, streams, and hiking trails.

OL: Describe a typical day at work.

Tim: The majority of my day is spent processing inbound freight, then moving onto the outbound orders.

OL: Favorite local restaurant?

Tim: Santino's Italian Cuisine in Jersey Shore. Their lobster ravioli is my favorite.

OL: What qualities does a person need to have to impress you?

Tim: Integrity and self-confidence.

OL: Name three individuals (from the past or present) that you would choose to share an evening of dinner and drinks? Why?

Tim: Neil Young (singer/song writer) is one of my favorite artists, General Patton (WWII), because I'm a WWII history buff, and Quentin Tarantino (filmmaker), as I like his quirky movies.

OL: What are two of your greatest pet peeves?

Tim: Lack of customer service, and aggressive/stupid driving.

OL: Your greatest accomplishment?

Tim: Raising a well-adjusted family.
